

## Corporate Bio

**Kate Leong**

*Director, Asset Operations*

With nearly 20 years of experience in commercial management, Kate has demonstrated a proven track record of managing complex portfolios, optimizing operational efficiencies, and contributing to the financial success of commercial real estate assets.

Currently serving as Director of Asset Operations at Cameron, Kate has been with the company for 12 years, playing an integral role in the development and establishment of its property management division. She oversees a dedicated team that ensures the smooth and effective administrative operation of assets, delivering top-tier property management administrative services. Kate is also responsible for generating detailed data reports for senior executives, the board of directors, and strategic partnerships, offering key insights that guide decision-making and organizational growth. As a result of her experience in the industry, Kate has helped develop and refine operational processes, fostering a culture of continuous improvement within the team.

An expert in navigating the complexities of commercial property management, Kate remains committed to delivering excellence in every aspect of the business, from budgeting and financial reporting to client relations and asset performance. Kate holds Bachelor of Business Administration from Simon Fraser University and continues to stay at the forefront of industry trends and best practices.
